

NARA Connections & Cocktails

Connecting Providers & Solution Partners

October 3, 2018 ~ San Diego, CA

**There is
Something
Keeping Our
Attendees
Up At Night!**

**And You
are Their
*SOLUTION!***

Join us for a “speed dating” type event between Owners and Providers who need Solution Partners; which will start the process for meaningful networking and connections throughout the NARA conference. Each Owner/Provider will have an opportunity to request matches in categories of interest...and Solution Partners will have an opportunity to meet key decision makers. This is a great opportunity for providers to investigate solutions for key business needs and for vendors to discuss their unique contributions.

Owners/Providers will register and complete business profiles indicating their needs. Solution Partners will also be completing profile information identifying their unique contributions for the identified categories. A matching process will occur throughout April to set up meetings between Providers and Solution Partners, with preference given in order by a tiered system (see below). Each Solutions Partner will have a minimum of 6 matches.
