

The Gold Standard in Accreditation.

Outpatient Physical Therapy

AAAASF accredits thousands of facilities world-wide, making it one of the largest not-for-profit outpatient accrediting organizations.

AAAASF is unique among outpatient accrediting organizations because we:

- assess the quality of therapeutic care in physical therapy, speech pathology, and occupational therapy.
- speak your language. We engage surveyors who are therapeutic care experts.
- work closely with facilities and provide help throughout the accreditation process.
- champion patient safety worldwide and have for nearly 40 years.

AAAASF accreditation has many benefits and will help your facility:

- demonstrate a strong commitment to patient safety.
- give patients a level of assurance that you have taken steps to provide a safe environment.
- standardize quality measurement.
- promote services to patients.
- collaborate with other health care leaders.

AAAASF provides official recognition to facilities that have met 100% of its high standards. Accreditation assures the public that patient safety is top priority in a facility.

NARA members receive a discount on the AAAASF annual fee.
