92507	97533		20201001	*	1	Misuse of column two code with column one code

**Note: No edit exists in the table between 92507 and 97129 (or 97130).

Chapter 11 of Medicare NCCI Edit Manual (rev 1/1/2020) states the following re: this code pair:

Speech language pathologists may perform services coded as CPT codes 92507, 92508, or 92526. They do not perform services coded as CPT codes 97110, 97112, 97150, or 97530 which are generally performed by physical or occupational therapists. Speech language pathologists shall not report HCPCS/CPT codes 97110, 97112, 97150, 97530, 97129 as unbundled services included in the services coded as 92507, 92508, or 92526. (CPT code 97532 was deleted on January 1, 2018. CPT code 97127 was deleted on January 1, 2020).

A single practitioner shall not report CPT codes 92507 (Treatment of speech, language, voice...; individual) and/or 92508 (Treatment of speech, language, voice...; group) on the same date of service as HCPCS/CPT codes 97219 [97129], 97533 (Sensory integrative techniques to enhance...), or G0515 (Development of cognitive skills to improve...). However, if the two types of services are performed by different types of practitioners on the same date of service, they may be reported separately by a single billing entity. For example, if a speech language pathologist performs the procedures described by CPT codes 92507 and/or 92508 on the same date of service that an occupational therapist performs the procedures described by HCPCS/CPT codes 97219, 97533, and/or G0515, a provider entity that employs both types of practitioners may report both services using an NCCI PTP-associated modifier. (CPT code 97532 was deleted on January 1, 2018. CPT code 97127 was deleted on January 1, 2020).

ASHA reinforces this on their website:

CPT code **92507** (speech, language, voice, and communication treatment) may also be appropriate if the focus of treatment is cognitive communication and if treatment goals are language-based. However, if the focus of treatment is primarily cognitive function, SLPs should report 97129 and 97130 unless specifically instructed by the payer.

Under the Medicare Part B (outpatient) program, 97129 and 97130 may not be billed with 92507 on the same day, by the same clinician. The National Correct Coding Initiative (NCCI) determines code pairs that may or may not be billed together on the same day, commonly known as "CCI edits."

CPT 97165 – OT eval, low complexity (These same edits are in place for 97161-97163, 97166, 97167.)

97165	97140		20201001	*	1	Standards of medical / surgical practice
97165	97140		20200101	20200101	9	Standards of medical / surgical practice

97165	97750		20201001	*	1	Misuse of column two code with column one code
97165	97750		20180101	20191231	1	Misuse of column two code with column one code
97165	97750		20170101	20171231	0	Standards of medical / surgical practice
97165	97755		20170101	20171231	0	More extensive procedure
97165	97755		20180101	20191231	1	More extensive procedure
97165	97755		20201001	*	1	More extensive procedure
