

“We really enjoy being able to use the program on iPads in patients’ rooms”

*Christianne J., Director of Rehab,
Windsor Care Center*

“RESTORE encourages increased socialization, but most importantly helps address strength & coordination deficits.”

*Virginia S., Therapy Supervisor,
Parkview Post-Acute & Rehabilitation Center*

“Our long term patients want to play again tomorrow!”

*Jennifer C., Activities
Director, Willow Spring*

ENHANCE PATIENT EXPERIENCE AND ACCELERATE CLINICAL OUTCOMES

Boost everyone’s day with hundreds of customizable, skill-building activities that motivate your residents to reach their therapy goals, keep them active and healthy.

Drive census and quality mix by differentiating your care approach with a cutting-edge platform. Use RESTORE to turn any PC into an interactive skill development tool that expands skill-building opportunities by engaging therapists, care partners, patients, and family members.
